

NEW PRODUCT

Radiator Pressure Tester Kit: 5811744

Global Parts Distributors, LLC (gpd) now offers a Radiator Pressure Tester Kit: 5811744

Pressure testing is an effective method of identifying leaks in the automotive cooling system. It is important to identify and repair leaks in the radiator and/or coolant lines as soon as possible to prevent coolant loss and engine damage due to overheating.

gpd's Radiator Pressure Tester Kit Includes:

- Hand pump with color coded pressure gauge, quick decoupler, and pressure release valve
- Universal adjustable seats for Europeans and Japanese vehicles with protective coating to prevent oxidation from uric acid
